

FOR AGENCIES

Does AI recommend *your clients?*

FoundByChat is an AI visibility tracker for small businesses and the agencies that report to them. Every day it asks the questions customers ask, in their market, and shows the real answers: which brands were named, which sources were cited, and where your client was missing.

What it tracks

Every day

How it works

01 Your clients' questions

We ask the questions their customers ask, every day, in their market.

02 Which brands are named

The brands each answer named, and the labels it gave them.

03 The sources the AI read

The citations and the search phrasing behind each answer.

04 Where they were left out

Where your client was missing, so you know what to fix.
